

Get Ready to Read***The Earth System*****What do you think?**

Before you read, decide if you agree or disagree with each statement. On the line before each statement, place an *A* if you agree or a *D* if you disagree. As you read this chapter, see if you change your mind about any of the statements.

Before You Read	Statements	After You Read
	1. The amount of water on Earth remains constant over time.	
	2. Hydrogen makes up the hydrosphere.	
	3. Most carbon on Earth is in the atmosphere.	
	4. The inside of Earth is mostly solid rock.	
	5. Rocks make up minerals.	
	6. Living things help make soil.	

What have you learned?

After you read each lesson, return to this worksheet to see if you have changed your mind about any of the statements related to that lesson. Place a *C* after each statement that is correct or an *I* for those that are incorrect.
