

The Earth System

Inquiry Warm-Up, *What Is a System?*

In the Inquiry Warm-Up, you investigated what makes up a system. Using what you learned from that activity, answer the questions below.

- 1. OBSERVE** What sphere is present in every jar?

- 2. PREDICT** How might the earthworms and water interact?

- 3. INFER** Which objects might form a system that works well as a whole?

- 4. MAKE MODELS** Design your own system using at least three of the spheres.
