

Earth's Interior

Inquiry Warm-Up, *Earth's Interior*?

In the Inquiry Warm-Up, you investigated the interior of a model Earth. Using what you learned from that activity, answer the questions below.

- 1. EXPLAIN** Why did you use a model for your observations?

- 2. COMPARE AND CONTRAST** How do direct and indirect studies differ?

- 3. COMMUNICATE** Compare your observations with another student who used a different tool. How are the observations alike? How do they differ?

- 4. INFER** How do you think your model results compare to the actual Earth?
