

## Assess Your Understanding

# The Earth System

### What Are the Main Parts of the Earth System?

**1a. REVIEW** The Earth system consists of the sun and four main \_\_\_\_\_.

**b. CLASSIFY** The sphere that contains humans is the \_\_\_\_\_.

**c. EVALUATE THE IMPACT ON SOCIETY** Give one example of how humans affect the hydrosphere. Then explain how this change impacts society.

---

---

**got it?** .....

☐ **I get it!** Now I know that the main parts of the Earth system are \_\_\_\_\_

---

☐ **I need extra help with** \_\_\_\_\_

---

### How Do Constructive and Destructive Forces Change Earth?

**2a. REVIEW** Forces that erode mountains are called (constructive/destructive) forces.

**b. LIST** List the destructive forces that act on mountains to erode them.

---

**c. RELATE CAUSE AND EFFECT** How do destructive forces change Earth?

---

---

**got it?** .....

☐ **I get it!** Now I know that constructive and destructive forces change Earth by \_\_\_\_\_

---

☐ **I need extra help with** \_\_\_\_\_

---
